Hyperlexia is a syndrome characterized by a child's precocious ability to read. It was initially identified by Norman E. Silberberg and Margaret C. Silberberg (1967), who defined it as the precocious ability to read words without prior training in learning to read, typically before the age of 5.

Hyperlexia - Wikipedia

Dyslexia is a term used to describe a range of persistent difficulties with aspects of reading, writing and spelling. It may assist with understanding why some students do not make expected progress in these areas despite the teaching and extra support that would be helpful for most other students.
